

## Website Maintenance: Plans & Rates

### How does it work?

Whenever you want something changed or added to your website, you simply call or email us and we do it for you! All you need to do is decide what you want updated...email us the details...and we'll do the rest.

### What does it cost?

Pay-as-you-go maintenance is charged at an hourly rate of \$90. However, unlike most web development companies, we only charge per quota (capped every 15 minutes). For example, if a project takes 15 minutes or less then the cost would be \$22.50; between 15-30 minutes would cost \$45; 30-45 minutes = \$67.50, and a full hour \$90.

### How quick can Website updates be made?

Most updates are completed within 48 hours and often within the same day.

Larger updates take slightly longer but we do offer Guaranteed Service Levels - this means that we guarantee that the updates will be completed when we say they will.

### Web site Maintenance: Monthly Fixed Cost Plans

Save money with our fixed monthly Web maintenance plans. If you need regular updates to your existing Website, then our fixed maintenance plans (based on pre-paid "blocks" of hours) will be more economical. Update old information, add new pages, improve search optimization, send out email newsletters and more. If you require frequent updates, save money with our fixed monthly maintenance plans.
